

The Hose Guys, Inc.

Introducing Oil Field Hydraulic Hose “Flexible Pipe” 5000 PSI Work Over Hose

“Flexible Pipe”

5000 PSI Work Over Hose
2” Inside Diameter
Rugged 4-Spiral Hi-Tensile Wire
Extended API Male Threads
Special Elongated “Heavy” Hex
130’ Lengths available

Tube: Seamless Oil Resistant Rubber
Cover: Abrasion & Oil Resistant Synthetic Rubber

I.D.: 2.00”

O.D.: 2.716”

Working Pressure: 5,000 PSI

Average Burst: 14,500 PSI

Min. Bend Radius: 35”

Weight Per Foot: 3.40 lbs.

Temperature: 40* F / +212* F

2” Flexible Pipe is designed to meet or exceed the API 16c requirement of a 2.5 to 1 safety factor.

IMPORTANT:

2” FLEXIBLE PIPE - 5000 WP Hose is designed for use on work over and well servicing rigs. For standard hydraulic fluid applications, 2” FLEXIBLE PIPE hose has a maximum working pressure of 3625 psi.
